Ten Discussion Questions for Families and School Groups

Just having these questions will make the exhibition that much more involving and interactive. We hope this will get children thinking about the value of art. And the threads of many discussions will tie all kinds of things together from there. – A.D. Lubow

1. What does the title of this exhibition mean to you?
2. Which is your favorite painting in the exhibition and why?
3. Throughout the exhibition you will see quotes from Bun-Bun, the main character's so-called imaginary friend. Which is your favorite quote? Why?
4. If you were suddenly placed in another time zone and another part of the world, what would you have in common with the local children? And how would you make friends? Where would you like to travel? With whom would you want to make the trip – and whom would you like to meet?
5. In what ways are magic and science alike?
6. When you look up at the stars, what do you wonder?
7. There are pyramids in ancient Egypt and there are pyramids in South America. Can you imagine how that happened?
8. What do you like most about your favorite teacher?
9. What do you love to do most in life?
10. Can you imagine why children love to imagine?
